Release Notes

October 24th, 2010

Enhancements

- End of Course Assessment: Administrator report to view the status of data for all students enrolled in your schools.

- Graduation Cohort Report: Administrator report to view Cohort Status data for all students enrolled in your schools

- ISTAR Report: Alternate School Age Aggregate/Group Report for the Alternate Assessment

- Accounts: The process to access an account after security questions are answered incorrectly has changed

- Administration: When clicking "Yes" to approve an account, a Registration Code account with ISTAR data will merge with the active account

- User Profile: The permissions that a user has for all their different corps/schools are displayed all in one place

- DOE Administration: An account cannot be deactivated if there is a caseload on that account

- Notification Emails: There is a link at the bottom of every email that allows users to change their notification settings

- Help System: Files on the help system have been updated

- Schools that are closed no longer display within Learning Connection
